Marek Z. Jeziorek

Work experience

1998 – present Netscape Mountain View, CA

Director, AOL Innovation Center

- Established AOL-wide process for engineering driven innovation. Managing core research engineering teams and 6 "incubator" teams.

Engineering Program Manager

- Program Manager responsible for working with customers (and internal Netscape teams) on embedding Netscape's browser technology.

Director, 4.x Communicator Engineering

- Manager of the teams responsible for the Communicator 4.x release as well as releases of Netscape 6 for OEM partners (Unix platforms). This was a self-contained engineering operation (development, QA, project management) with a staff of 42 people and over \$4M budget. We shipped on time several Communicator 4.x releases.

Engineering Program Manager

- As the engineering Program Manager for the Netscape Communicator 4.5, I was responsible for setting up the processes, planning and day-to-day operations of the entire Communicator 4.5 project. The result was a high quality release. "And unlike previous versions of Communicator, 4.5 actually shipped early!" [from CNET's 10/19/98 review of the product].
- OPERATIONS EXPERIENCE: Managing large software projects (150+ contributors and managers).

1997 – 1998 NaturalBridge, LLC Palo Alto, CA

Member of Technical Staff; Director (Board of Directors)

- Founder and a member of the technical staff at NaturalBridge, LLC — the company developing native highly optimizing Java compilers.
- OPERATIONS EXPERIENCE: Writing business plans, incorporating a business, building a start-up organization and business development.
- TECHNICAL EXPERIENCE: Building Java native code compiler, run-time and class libraries in Java.

1993 – 1997 ParcPlace-Digitalk Inc. Sunnyvale, CA

Director of Development Operations

- Director responsible for planning, development and execution of Java strategy within ParcPlace-Digitalk. The outcome was licensing of Java by ParcPlace-Digitalk and release of Parts for Java – rapid Java development and deployment tool.
- As the Director of Development Operations, responsible for day-to-day operations of the Sunnyvale engineering site. This included management

of the 50-person organization consisting of software developers, documentation writers and QA engineers.

- Management of the Distributed Systems, database and Smalltalk Virtual Machine teams.
- Member of the executive merger and acquisition team evaluating merger between ParcPlace Systems and Digitalk Inc.
- Manager of the Customer Technology Partnership team – the group working jointly with the customers on various aspects of software project development.
- Manager responsible for planning and execution of C++ strategy within ParcPlace-Digitalk.
- OPERATIONS EXPERIENCE: Project management, management of the engineering organizations (both large — up to 50 people — and small), organization building and successful product releases.
- TECHNICAL EXPERIENCE: Smalltalk programming, OO design and implementation, development tools; Java tools and programming.

1989 – 1992 Sun Microsystems Mountain View, CA

Manger, Network Software Environments

- Responsible for the Network Software Environment – team software configuration management tools. The responsibilities included management of the engineering organization, as well as the coordination with QA, technical support, documentation and product management groups. The team successfully shipped multiple product releases to both internal and external customers.
- Worked with the management of major engineering organizations at Sun to modify their software development processes to utilize the software configuration management tools.
- OPERATIONS EXPERIENCE: Project management, management of engineering organizations, organization building, successful product releases, process change and technology transfer.
- TECHNICAL EXPERIENCE: Configuration management systems, Sun UNIX development tools, C programming.

1986 – 1989 Apple Computer Inc. Cupertino, CA

Project Manager

- Successfully delivered multiple releases of software development tools for both Apple IIGS and Macintosh. The work involved planning, designing, negotiations and coordination of work done by the Apple engineering team and three geographically dispersed sub-contracting software houses.
- OPERATIONS EXPERIENCE: Project management, successful product releases, and management of the dispersed teams.

- TECHNICAL EXPERIENCE: Pascal, C and assembly language programming on Macintosh and Apple IIGS, native and cross-development tools for Apple IIGS.

1982 – 1986 Dialogic Systems Inc. Sunnyvale, CA

Software Engineer; Team Leader

- As a member of the development tool team, I was working on the graphical software tools targeting the corporate MIS developers. The tasks included COBOL syntax directed editor, other browsers and editors, session management and communications with the IBM MVS mainframes.
- OPERATIONS EXPERIENCE: Project management, team leadership and management.
- TECHNICAL EXPERIENCE: Pascal and C programming, development of language editors for COBOL, development of text editors.

1980 – 1982 Intel Corporation Santa Clara, CA

Software Engineer

- As a member of the development tool team, I was working on the Pascal and Cobol compilers and the required compiler runtime libraries.

Education

1988 – 1989 San Jose State University
Half done with evening and weekend MBA program

1978 – 1980 University of Wisconsin -- Madison
MS in Computer Science — Programming Languages and Databases

1972 – 1976 University of Warsaw, Poland
BA in Computer Science and Mathematics

Professional memberships

Member of Association for the Computing Machinery

Languages

English, Polish
